

Report Designer

Can't customize a report to suit your needs? Are you a technology enthusiast? If you answered "yes" to both of these questions, Report Designer may be right for you.

Report Designer lets you create customized reports from scratch. Report Designer provides powerful query and design functionality to help you create in-depth, professional reports. It also provides a way to organize your reports and leads you through the initial report-building steps.

If you are new to Report Designer, check out the [overview](#) and the [learning tutorial](#). You can also select or search for a topic below.

Technical Expertise Required

Report Designer has awesome powers of customization, but the trade-off is a learning curve. Working with Report Designer requires a fair amount of technical knowledge.

If you find that Report Designer isn't the right tool for you, we also offer professional report customization for a fee. If you are interested, please [contact Support](#).
