

Installing the fonts to process Max It labels in OnDemand

In order to process Max It labels in OnDemand, you must [download](#), unzip, and install the following three fonts on your personal computer:

Font Name	File Name	Description
USPS4CB	usps4cb.ttf	This font prints the Intelligent Mail Barcode in Max It.
SatCode128	SatCode128.ttf	This is the Intelligent Mail Barcode font for container tags.
SatIMpb	SatIMpb.ttf	This is the Intelligent Mail Package Barcode used for containers and parcels.

1. Save the **USPS4CB**, **SatCode128**, and **SatIMpb** fonts from the [satori-software-fonts.zip](#) file to your workstation.
2. Double-click on the first font, then click **Install**.
3. Repeat step 2 for the other two fonts.

1. Save the **USPS4CB**, **SatCode128**, and **SatIMpb** fonts from the [satori-software-fonts.zip](#) file to your workstation.
2. Double-click on the first font, then select **Install font**.
3. Repeat step 2 for the other two fonts.
