

# User Account Security

**GET** `/:site_number/account`

Returns the account and security information for the user supplied for the Basic Authorization.

## Example

`https://secure.accesssacs.com/api_accesssacs_mobile/v2/12345/account`

## Required Permissions

No permissions are required for this API.

## Request Header

Basic Authorization is used to determine security rights for the user credentials supplied using the following parameters.

**username:** "jadams"

**password:** "password231"

## URL Parameters

**site\_number** – The site number to gather data for.

## Return Data

```
{
  "SiteNumber": 12345,
