

Using the Zebra GX420d Wireless Thermal Label Printer

The Zebra GX420d works with [ACS Checkpoint](#) in both ACS Desktop and OnDemand.

This printer offers a small footprint, and it's designed for low- to mid-volume label printing needs. The GX420d is ideal for uses such as person ID & access control, security, and photo processing labels.

- Direct thermal printing
- 200-dpi print quality
- Adjustable sensor option
- One-touch button for immediate media registration
- Compatible with multiple media sizes
