

Get List of Calendars

Attention

 For this API to work correctly, the Access ACS calendar must be set as your default calendar.

GET `/:site_number/accesscalendars`

Returns a list of calendars for a site.

Example

`https://secure.accessacs.com/api_accessacs_mobile/v2/12345/accesscalendars`

Required Permissions

The user must fall into one of the categories below:

- System Administration
- A user with Grant Rights to Calendar Types

Request Header

Basic Authorization is used to determine security rights for the user credentials supplied using the following parameters.

username: "jadams"

password: "password231"

URL Parameters

site_number – The site number to gather data for.
