

Connection Details

GET `/:site_number/connections/:connection_type_id?include_self`

Returns the complete details of a connection.

Example

`https://secure.accessacs.com/api_accessacs_mobile/v2/12345/connections/1234?IncludeSelf=true`

Required Permissions

The user must fall into one of the categories below:

- System Administration
- A user with the following rights:
 - Ability to assign contacts
 - View rights to at least one Connection Type

Request Header

Basic Authorization is used to determine security rights for the user credentials supplied using the following parameters.

username: "jadams"

password: "password231"

URL Parameters

site_number – The site number to gather data for.

connection_type_id – The connection id for the type of connection you are selecting. Values from [Connection Type API](#).

Query String Parameters

include_self – To include yourself in the Team Member List when set to True. The default value is False.
