

# Post an Article

Once you've [created your article](#), you can add it to a page for publishing on your website.

1. Log in to your site as an administrator.
2. Point to **Site** and click **Channel Manager**.
3. Double-click the page you want to edit.
4. To replace an article, locate the content area that contains the existing article and click the **Article Manager** button.

5. Select the article you want to use and click **Submit**.
6. If you need to create a new area on the page for your article, first [Add a Content Row](#), then add the article as above.
7. If you want to see the title, images, abstract, etc., but don't, you probably need to [change the display options for the content area](#).
