

SpeedCheck

With SpeedCheck, you can scan and electronically deposit your contributors' checks into ACS.

First, [install SpeedCheck](#).

Here's an overview of the SpeedCheck process:

1. [Scan your checks as batches and calculate each batch's expected total](#)
2. [Balance your check batch amounts](#)
3. [Review and approve your check batches](#)
4. [Deposit your check batches](#)
5. [View and print SpeedCheck reports](#)
6. [Import the transactions into ACS](#)
